[Despatch Abstract.]

Civil supplies - Jaggery - Special kind of jaggery produced in Coimbatore taluk & Kanara dt - Conversion into ordinary jaggery - Special staff sanctioned

Camp, Calicut,
2nd November 1942.

NOTES FOR THE COMMISSIONER with Spices

x x x x x

JAGGERY: In Coondapur taluk and in portions of Udipi taluk a peculiar kind of jaggery is manufactured from sugarcane. Instead of the juice being boiled till it becomes solid, the juice is converted into a sort of viscous liquid and then stored in tins. A portion of this produce is consumed in Coondapur and Udipi taluks and the surplus is exported to Kathiawar State where, I understand, it is used in the manufacture of arrack. The merchants of Coondapur say that the excess jaggery, which in some years amounts to about 75,000 tins, should as usual be allowed to be exported to Kathiawar.

I enquired the merchants at Kasaragod and Puthur whether they could not popularise the use of this jaggery in their area. They said that the jaggery was quite good but that its being kept in a viscous condition in tins made it impossible to sell it in retail in the shops. If this jaggery could be prepared in the form of slabs as in other places, I think the whole quantity could be used, within the district. The price of jaggery is very high at present and there is no reason, why a large quantity of jaggery should be exported outside. The Director of Agriculture may be requested to find out urgently whether the ryots of this taluk could not be induced to convert the sugarcane juice into ordinary jaggery. The harvesting of the sugarcane crop in this taluk generally commences from December. The Agricultural Department has therefore to take up this question urgently. The Collector also may be requested to help the Agricultural Department in the matter.

In any case it seems desirable to arrive at an early decision on the disposal of this jaggery. If the present ban on the export of jaggery is continued the merchants will purchase these tins from the ryots at low prices and then stock them for a month or two and then agitate for the export of jaggery to Kathiawar later and get all the benefits of the higher prices.

READ: Government memo. No.11385-F/42-2, Development, dated 22nd December 1942.

--

REFERENCE:

With reference to the Government memorandum cited above the Board submits a copy of a letter received from the Director of Agriculture, No.C2-1801-42, dated 22nd December 1942.

In view of the shortage of sugar, it is desirable that South Kanara which has a surplus should produce jaggery of the kind which is generally consumed in the rest of the Province. The Board therefore requests that the Government may be pleased to sanction at a very early date the special staff asked for by the Director of Agriculture.

For ADDITIONAL JOINT SECRETARY.

To the Secretary to Government,
Development, Department, Madras.

Copy of letter from the Director of Agriculture, Madras, to the Secretary, Board of Revenue (Civil Supplies), Madras, No.C.2.1801/42, dated 22nd December 1942.

Sub: CIVIL SUPPLIES – Jaggery – (South Kanara district) Special kind of Jaggery – Conversion into ordinary jaggery – Special establishment for demonstration and propaganda – Proposal.

Ref: Board's Ref: No.8980/42, dated the 6th December 1942.

The District Agricultural Officer, Mangalore, reports that the liquid (viscous) jaggery referred to in the note of the Deputy Commissioner of Civil Supplies is very popular in the taluks of Coondapur, Udipi and Karkal, and that in normal times it is only the quantity which is surplus of the requirements of the district that is exported to Kathiawar. If, as is presumed, the Orders (issued in G.O. No M.288, Development, dated the 5th September 1942) prohibiting the export of jaggery from this Province, apply to the viscous jaggery produced in the South Kanara district also, then there is no fear that the stuff will be exported to Kathiawar as before. At the instance of the Collector, the District Agricultural Officer is investigating whether the producers of this kind of jaggery would be willing to prepare ordinary jaggery if given the necessary guidance. In order that propaganda may be carried on among the producers to induce them to convert their cane juice into ordinary jaggery and necessary demonstrations conducted in this connection, the District Agricultural Officer proposes the appointment of a minimum staff of 4 maistries for a period of 2 months.

2. The total expenditure for the ensuing season will be Rs.264/- as detailed below:

	Rs.
1. 4 maistries at Rs.19/- per mensem per head for 2 months ...	152
2. Dearness allowance at Rs.4/- per head mensem	32
3. F.I.A. at Rs.7/8/- per mensem per head	60
4. Contingencies. ...	20

9

3. As the services of the Maistries will be required from January 1943, it is requested that the Board may be pleased to obtain sanction of Government to the expenditure propos d above at a very early date.

Commissioner of Civil Supplies

Ref: Board's Refce 8980-C/42 dated 31-12-42.

In continuation of the reference cited above, the Board submits that the Director of Agriculture has since submitted revised estimates of the cost of the special staff proposed for the propaganda and demonstration work connected with the conversion of viscous jaggery into ordinary jaggery. They are as below:-

			Rs.
4 Maistries at Rs.19/- per mensem			76
Dearness allowance at Rs.4/- per mensem			16
Travelling allowance consolidated at Rs.15/- per mensem			
Daily allowance at Re.0-5-4 per day for 21 days tour	Rs. 7 0 0		
Bus fare for journey above 10 miles at an average rate of Rs.8/- per mensem	8 0 0		
	15 0 0		60
Total, 1 month			152

Therefore for 2 months	...	Rs.304
Contingencies	...	20
Total expenditure	...	Rs.324

As the crushing season has already commenced, the Board requests that the Government may be pleased to sanction the special staff applied for at a very early date.

For Additional Joint Secretary.

22 APR 1943

J.F.Saunders Esq., I.C.S.,
Secretary to the Commissioner of Civil Supplies.
W.Scott Brown Esq., M.S.I., C.I.E., I.C.S.,
Commissioner of Civil Supplies.

Ref: G.O.No.Ms.47 Development dated 19-1-1943.

The Board submits to the Government a copy of the report of the Director of Agriculture on the work of the Special staff employed with reference to the G.O. cited above. As regards the question of appointing similar staff during the next season referred to in the Director's letter the Board suggests that the Director of Agriculture may be asked to consider in consultation with the Collector, the need for similar propaganda during the next crushing season and to submit the necessary proposals sufficiently in advance of the crushing season, so that orders of the Government may be obtained in time.

For Secretary.

Copy of letter from the Director of Agriculture, D.Dis.No.C.157/43, dated 13th April 1943, to the Secretary to the Commissioner of Civil Supplies, Madras.

Sub: Civil Supplies - Jaggery - Special kind of jaggery - Produced in Coondapoor taluk, South Kanara district- conversion into ordinary jaggery.
Ref: Board's Ref; No.8980-C/42, dated 30-1-1943.

I enclose copy of a letter No.880/42 dated 2-4-43 of the District Agricultural Officer, Mangalore, containing his report on the work of the Special staff sanctioned in G.O. Ms.47, Development, dated 19-1-43. The work of the Special staff would have borne more fruit had they been appointed before the commencement of the cane crushing season. I suggest that the sanction of Government be obtained for appointing similar staff during the next season also.

Copy of letter from the District Agricultural Officer, Mangal R.O.C.No.880/42 dated 2-4-43 to the Director of Agriculture Madras.

Sub: Civil Supplies - Jaggery - Special kind of jaggery - conversion into solid jaggery - special staff - Report on -
Your Endorsement D.Dis.No.C.2.1801/42 dated 25-1-1943.

I submit the following report on the work of the

of the Special Staff employed for propaganda in connection with solid jaggery manufacture in pursuance of G.O.No.Ms. 47 Development dated 19-1-1943.

The following staff were employed.

2 Demonstration Maistries from 2-2-1943 to 8-3-1943.
2 -do- -do- 9-2-1943 to 28-2-1943.

As the harvest of practically the whole of the cane crop was over by that time the Special Maistries were discharged at the end of the period. Their work was practically confined to the Coondapoor Taluk where the maximum amount of viscous jaggery is prepared.

The normal area under sugarcane in Coondapoor Taluk is 1333.00 acres. The sugarcane harvest generally starts by the middle of November and is in full swing in December-January. Further the high price of jaggery and the poor rainfall during the N.E.Monsoon accelerated the harvest of sugarcane. A major portion of the crop was thus harvested by the time the maistries were appointed. The remaining area except those villages where there was no sugarcane crop was covered by the demonstration maistries and propaganda carried on for the preparation of solid jaggery as against the local practice of preparing viscous jaggery. They visited 72 villages, conducted 80 demonstrations of solid jaggery manufacture and prepared in all 354 maunds of solid jaggery and it is estimated that they have been instrumental for the preparation of 240 tons of solid jaggery. The details of villages visited etc. are given separately.

The following expenditure was met in this connection.

Dl. pay of establishment - voted,- Temporary	..	Rs.75- 8-0
Dearness allowance	..	15-10-0
Allowances - Ordinary - T.A.	..	58-9-0

Jaggery.- The Deputy C.C.S. states that it is desirable to arrive at an early decision on the disposal of the special kind of jaggery manufactured in Coondapur taluk. In view of the present sugar situation it is necessary to conserve all available supplies of jaggery in the Province and that no further export should be permitted. It is presumed that the C.C.S. would have addressed the D.A. as suggested at 'A' on p. 37 c.f. A draft Memo enquiring whether the presumption is correct is submitted.
